EVALUATING WEB RESOURCES
❖ Currency – check the date of the page. When was it last updated?
❖ Reliability – verify facts. Is the page accurate?
❖ Authority – who created the page? Is the author an expert in the subject of the page? Is there independent evidence of that – news interviews (think a Lexis/Nexis search), congressional testimony?
❖ Purpose – why was the page created? Is it a mask for advertising? An “unbiased” non-profit might not be so “unbiased.” Even .mil and .gov pages may have a point of view.
